## Turkish Defence and Aerospace

As Mustafa Kemal Atatürk, the great leader and founder of Turkey, unforgettably pronounced, "Peace at home, peace in the world" should be the ultimate goal of mankind. With an ever-reinforced faith, Turkey continues to develop her military genius for the ultimate good of humanity. As a result, Turkish Defence and Aerospace industry continues to thrive with excelling technology and innovations.

As an active NATO member, Turkey combines industrialization, armament cooperation and innovation to provide state-of-art solutions for the defense industries.
