The Trademark of Reputation

Turkish Textile

Anatolia is a leading geography of textile trade and industry over 3000 years. The primary findings of fabric were shown up in Anatolia. The textile industry is one of the first established industries in Turkey.

Today, having the largest share in Turkish industrial production blending tradition with the highest quality of raw materials to meet the demands of the globe. The fabric industry as a sub-sector of the huge Turkish textile industry has improved significantly in recent years, since the Turkish textile and home textile industries have had a significant role in the world's textile and home textile markets in the last two decades.

In a rapidly changing world, the creation of collections with innovative and modern designs and motifs in addition to the quality of the product is essential. New and modern designs and unique motifs, all created by Turkish designers, keep a finger on the pulse of world fashion and meet all tastes and preferences.

Indulge in the quality and design of Turkish textile...
